

OUR EDUCATION IS WORKING. SO ARE OUR GRADUATES.

At The Art Institutes schools, our graduates' success gives us a lot to be proud of. And gives you a lot to think about.

Real jobs. Real futures.

At The Art Institute of Tennessee–Nashville, we'll prepare you for a real-world, creative career that lets you turn your passion into your profession. You'll learn from experienced professionals, who work in the industry. They've been there—and understand what it takes to move from creative student to working professional.

Our students learn on industry related equipment and software—similar to what you'll find in businesses from advertising agencies to video game design studios, fashion houses, or professional kitchens.

And our Career Services team will work with you as you evolve from student to graduate. We'll let you know about job openings, give you interview preparation tips, and even help you polish up your resumé.

It's all done with one goal in mind—to give you a running start at an exciting future as a creative professional.

Take a look at some of the entry-level positions our recent graduates have secured. And get a clearer picture of where our creative education can take you. To learn more about average starting wages for professional fields in the Nashville region, visit http://www.bls.gov/oes/2008/may/oes_34980.htm. Creativity has real-world value.

At The Art Institute of Tennessee–Nashville, we provide the education you need to become a valuable member of the creative community. It's our goal to prepare our students for fulfilling careers, doing what they love. In each of our hands-on education programs, everything we teach is grounded in the real world they'll be entering as they start their careers. And as they enter the job market to pursue their passion, they take with them the portfolio, interviewing and networking skills, and industry insights they need to get in front of employers.

An entire creative community behind you.

With over 45 schools in North America, The Art Institutes system has more than 200,000 graduates out there, working in the fields of design, media arts, culinary, and fashion. Our Career Services department keeps in close touch with industry connections, organizations, and employers to learn of job openings and trends that can give our graduates an edge as they prepare to enter the job market—both locally and across North America. We're proud that our graduates continue to design a more creative world, where they work in productive and fulfilling careers.

FROM WORK-IN-PROGRESS TO WORKING PROFESSIONAL.

Our graduates have the education and the skills to hit the ground running.

Our grads have value. Just ask the employers who hired them.

Employers who know what they're looking for take a good look at our graduates. They value the fact that our design, media arts, fashion, and culinary programs are led by instructors from the real working world. And many employers actually add value themselves, both by offering internship opportunities and by helping us make sure our programs are in step with industry needs.

Members of the first graduating class of The Art Institute of Tennessee—Nashville have started their careers with these and other employers in the region and beyond.

- Bread & Company
- Eurest Dining Services
- The Governors Club
- The Hermitage Hotel
- Herons at Umstead

- TomKats Catering Group

The employers listed have employed graduates from 2008 only.

We can help you build strong job-seeking skills.

Our Career Services staff supports students' career planning efforts with tips and techniques that can lead to successful job searches. We have contacts in your community and can help you connect to hiring managers in other cities by leveraging our network of Career Services advisors throughout North America.

We provide:

- Help with job search skills, resumé writing, interviewing, and networking
- Help finding part-time work while still in school
- Help pursuing full-time work after graduation
- A Portfolio Show during final quarter attended by potential employers
- Opportunities to meet employers at career days and job fairs
- Current insights into the skills employers are looking for in candidates
